

In addition to the **READ version of the Circular 2020** there are **two SHORTENED PRINT versions**. One is in full colour the other in greyscale. If you are able, and happy to print off copies for a few friends and neighbours who would like to have them, and who have no access to a computer and printer themselves, and you have a printer that will print double sided copy, this is the method:

Open the version you wish to print

Go to PRINT

Go to the printer menu

Select PRINT ON BOTH SIDES

Select FLIP ON SHORTSIDE

Then PRINT having selected the number of copies you wish to print.

The printed copy will then appear in the right page order on both sides.

Fold the printed sheets in the middle to form a booklet.

Alternatively you can print off single pages of the READ version if you want only selected pages.
